

PEPPERDINE UNIVERSITY

School of Law

The Straus Institute for Dispute Resolution

“TRANSLATING THEORY INTO PRACTICE...”

Pepperdine is more than an educational institution. It stands at the very center of dispute resolution. In over ten years of affiliation with the Straus Institute, it has struck me that the people who study and teach there are true trendsetters. They have a vision that seeks out new ways to implement and adapt the principles of ADR to the civil justice system. At the same time, they blend traditional core knowledge with creative techniques that are needed when dealing with tough litigators. When people ask me for direction on what career path might elevate them in the mediation field, I tell them that all roads lead to and from the Straus Institute.”

Jeff Krivis

Private Practice Mediator/
Adjunct Professor
